Summer Explorations in Acadia

Hulls Cove Visitor Center
Open 8 a.m. to 6 p.m. Pick up a park map and watch a 15-minute introductory audiovisual program. English, French, German, audio description, and captioning are available.

Ride Island Explorer
Free Island Explorer buses operate throughout Mount Desert Island. See insert for schedules.

Self-Guided Audio Tour
Cassettes and CDs of the 56-mile (90-km) audio tour of Acadia are available for sale at the visitor center.

Explore the Park Loop Road
From the visitor center, drive 27 miles on the Park Loop Road and Cadillac Mountain Road to view the spectacular scenery of Sand Beach, Otter Cliffs, and Cadillac Mountain. Enjoy occasional stops to stroll down a path or read a wayside information sign.

Ranger-Led Programs
Join us for boat cruises, evening slide programs, mountain hikes, star gazing, short talks, and nature walks. For a schedule and descriptions, see pages 4-6.

Hiking
Over 120 miles of hiking trails offer something for everyone. Pick up a guide to the most popular trails at the visitor center. Detailed trail maps and guides are available for purchase.

Swimming
You can swim at Sand Beach, but beware ocean temperatures that rarely rise above 55°F (13°C). For warmer water, try Echo Lake on Route 102. Many other ponds and lakes on the island are public water supplies where swimming, wading, and pets are prohibited. Please respect posted regulations.

Walking and Biking
Walkers, bikers, joggers, and horseback riders can enjoy 45 miles of historic carriage roads. Motorized vehicles (with the exception of motorized wheelchairs) are prohibited on carriage roads. Guidebooks to the carriage roads and other bike routes on Mount Desert Island are available for purchase at the visitor center. Bicycle rentals are available in nearby communities.

Museums in the Park
Nature Center: Exhibits focus on Acadia’s natural resources. Open 9 a.m. to 5 p.m. daily. Free admission. Located at Sieur de Monts Spring.
Islesford Historical Museum: Exhibits tell the story of the Cranberry Isles and their people. New this year: Explore the age of sail in the Cranberry Isles. Accessible by boat from Northeast Harbor or Southwest Harbor. Open 9 a.m. to noon and 12:30 p.m. to 3:30 p.m. Free admission.
Abbe Museum: Explore the story of Maine’s earliest people from 11,000 years ago to today. Open 9 a.m. to 4 p.m. daily. The museum is privately operated and charges a small fee. Located at Sieur de Monts Spring.

Self-Guided Walks
Pick up guidebooks for a small fee at the starting point of each walk to help you explore the area.
Carroll Homestead (½-mile loop, very easy): Catch a glimpse of the lifestyle of an early island family.
Jordan Pond (1-mile loop): Start at the boat launch parking area (not the restaurant parking area) and meander through the woods along the lakeshore.
Sieur de Monts Spring (½-mile loop): Explore the story behind the founding of the park.

Rising moon over Cadillac Mountain.

More of Acadia

Schoodic Peninsula: The park protects 2,000 acres on the tip of Schoodic Peninsula, located fifty miles from Bar Harbor by road and the only section of the park on the mainland. A one-way, six-mile loop road skirts the edge of the peninsula, offering sweeping views of Mount Desert Island.

Isle au Haut: Two thousand acres on Isle au Haut, a remote offshore island linked to the mainland by a small boat from Stonington, are also part of the park. Rocky shoreline, wooded uplands, marshes, bogs, and a one-mile-long freshwater lake offer opportunities for day hiking and solitude.

Outside the Park

Mount Desert Island features scenic island harbors, an operational lighthouse, and quaint towns. On the west side of the island lie the traditional downeast towns of Bass Harbor and Bernard. Here you’ll find docks covered with lobster traps and harbors filled with fishing boats. Nearby, the Bass Harbor Head Lighthouse has warned generations of mariners that land is near. On the east side of the island is Northeast Harbor, filled with pleasure craft.

Local communities offer boat trips, whale watching, canoe rentals, and ocean kayaking trips. For more information, contact the local chambers of commerce.

Park Closures

Construction Projects

The park has a number of construction projects underway as we continue to upgrade facilities to better serve your needs. Some of these projects may affect your use of the park. Please be patient, as the end results will be worth the wait! Summer 2004 projects include rehabilitation of:

- Seawall Campground - The campground is open from June 26 to September 6, but Loop B will remain closed all summer.
- Sieur de Monts Restroom
- Sand Beach Restroom and Parking Lot - The upper level of the parking lot is closed.
- Carriage Road Bridges - To be determined. Closures will be posted.

Nightly Closures

For the protection of park resources, a number of areas in the park are closed from midnight until one hour before sunrise. These areas include:

- Cadillac Mountain Summit
- Bass Harbor Head Lighthouse parking area

Peregrine Falcon Closures

Acadia National Park has some of the most successful peregrine falcon nesting sites in the country. To protect nestlings, the following areas are closed to visitors until the young birds leave the nest in late summer:

- Precipice Trail
- Jordan Cliff Trail
- Valley Cove

Check at Hulls Cove Visitor Center for trail opening dates.

National Park Service

U.S. Department of the Interior

Acadia National Park encompasses over 47,000 acres of granite-domed mountains, woodlands, lakes and ponds, and ocean shoreline, creating striking scenery and diverse habitats. This diverse environment combines with a rich cultural history to create unparalleled scientific, educational, and recreational activities in a spectacular setting.

EXPERIENCE YOUR AMERICA™

2004 Fees

Acadia National Park has established new entrance fees for 2004. Eighty percent of all fees collected in the park stay in the park. Your support is an investment, helping preserve Acadia National Park for future generations. Thank you for your support—you are helping make the park a better place!

New Hanging Tag and Fee Notice

This year we will issue a new rearview mirror hanging tag for visitors holding a valid federal recreation entrance pass, including Golden Access, Golden Age, National Parks, and wallet card Acadia annual passes. This yellow hanging tag, while not an entrance pass in itself, serves as a placeholder in vehicles carrying a visitor with a valid entrance pass. Visitors issued the yellow hanging tag will be expected to show their valid entry pass each time they go through the entrance station. Vehicles that display an Acadia annual pass decal on the windshield do not require a yellow hanging tag.

Also beginning this year, we will issue an orange fee notice to vehicles that do not display a valid entrance pass. This notice reminds visitors about park pass policy: Everyone who enters the park must obtain a pass.

Park entrance passes are available at the following locations:

- Sand Beach Entrance Station
 - Hulls Cove Visitor Center
- Park Headquarters
 - Bar Harbor Village Green
- Blackwoods Campground
 - Seawall Campground

Drive-up sites \$20 per night. Walk-in sites \$14 per night.

Help Us Revegetate!

During the 2004 season at Acadia, Seawall Campground, as well as several of the carriage road bridges, will be undergoing extensive rehabilitation. This work includes some disturbance of the natural landscape. In response, the park has set in place a revegetation project, which will replace much of the vegetation that will be lost due to the construction. Here’s how you can help make this project a success and restore these areas to their natural condition:

- Areas where native plants are planted at Seawall Campground early this summer will be roped off and will contain signs indicating what’s happening there. Please don’t walk through these areas or damage new or existing plants or trees.
- Stay on designated paths at Seawall. Taking shortcuts kills plants!
- When you’re at the carriage road bridges, use designated trails to view them. Don’t trample plants by walking off the trail.
- Remember: It only takes one footstep to kill a plant.

Areas undergoing revegetation are fragile. Please do not disturb them.

Emergency? Call 911.

Call 911 for all emergencies.

Ride the Bus!

Free Island Explorer propane-powered buses operate throughout Mount Desert Island, linking Acadia National Park to neighboring village centers. See the Island Explorer insert to plan your visit using the bus system. By parking your car and riding the bus instead, you can help reduce traffic congestion, parking, and air pollution problems on the island.

Religious Services in the Park

On Sundays *Christian Ministry in the National Parks* holds services in the park. All are welcome. The Sunday worship schedule is:

- 8 a.m. - Blackwoods Campground
- 10 a.m. - Seawall Campground
- 7:30 p.m. - Blue Hill Overlook atop Cadillac Mountain (weather permitting)

Fees Help Support Free Transportation System

Acadia National Park has established new entrance fees for 2004. The Acadia annual pass has increased from \$20 to \$40. From mid-June through mid-October, a weekly entrance pass will cost \$20. These increases reflect a transportation fee that supports the Island Explorer bus system: \$10 from every weekly and Acadia annual pass sold during the season will go into a special transportation account to support the buses.

The Island Explorer is a voluntary, seasonal public transit system that serves Acadia National Park and its gateway communities. Established in the late 1990s to reduce traffic congestion, parking, and air pollution problems in the park and on Mount Desert Island, Island Explorer provides an eco-friendly transportation alternative. The Island Explorer bus system was created through a partnership between the National Park Service, U.S. Department of Transportation, Maine Department of Transportation, Friends of Acadia, six municipalities, and private businesses. Downeast Transportation Inc., a nonprofit organization, operates the system.

The current bus system consists of 17 propane-powered buses that operate on 8 different routes connecting the airport, ferry terminals, campgrounds, and motels in the region, as well as popular destinations within the park. Ridership has increased steadily since 1999 to more than 340,000 riders during the summer of 2003. Traffic congestion and overflow parking problems have declined in the park, and the release of locally generated vehicle emissions has been significantly reduced.

While the Island Explorer has been successful to date, the capacity of the system must expand significantly to eliminate traffic problems in the park. Acadia needs additional revenue to help cover the cost of operating a much larger bus system. Transportation fees associated with the new entrance fee rates will help defray these costs and enable the long-term expansion of the Island Explorer system.

Please buy your park pass: All visitors who enter the park, whether on foot, on bicycle, in private vehicles, or on the Island Explorer, must pay an entrance fee.

We thank you for your support!

New Ranger Programs

This summer visitors will have the opportunity to participate in three new ranger-led programs. Get to know your park up close and personal: Join rangers for an exploration of sea life (Beyond the Beach: The Intertidal Life of Acadia), a night walk (Knowing the Night), or a bike ride on the carriage roads (Riding the Roads).

These new programs are charge a fee, enabling the park to hire staff and purchase supplies to make these programs possible.

Each program will be offered twice a week in July and August. See pages 4-5 for program locations and schedule. Don't miss this chance to explore the park with a ranger!

Children exploring the intertidal wonders of nature.

Where Else Do Your Fees Go?

The majority of fees paid in Acadia stay right here. The Recreational Fee Demonstration Program, authorized by Congress in 1996, mandates that 80 percent of fees paid in Acadia stay in the park to be used for projects that directly benefit park visitors and resources.

In addition to supporting the Island Explorer bus system, your fees are used for a variety of projects that improve the condition of natural and cultural resources and make the park a safer place for you to visit.

Some of the projects scheduled for 2004 include:

- Rehabilitation of 24 historic carriage road bridges
- Rehabilitation of the historic trails system
- Rehabilitation of the Wildwood Stables Barn
- Construction of curatorial office/work space and fire protection for the park's collection of historic objects
- Construction of the Isle au Haut Ranger Station
- Rehabilitation of the grounds at the Nature Center at Sieur de Monts Spring

Thank you for your support of Acadia National Park. We couldn't do it without you.

Acadia's Big Birds: Peregrine Watch and Hawkwatch

Acadia is a great place to see big birds. During your visit to the park, you may have the opportunity to see peregrine falcons nesting on cliffs with their young or migrating hawks soaring high above Cadillac Mountain. Visit the Peregrine Watch and Hawkwatch sites to learn more about these big birds.

Peregrine Watch

For 14 years, peregrines have raised their young on Champlain Mountain. On most days in the summer until the peregrines leave the nest, a ranger or volunteer sets up viewing scopes and shares information about peregrines at the Precipice Trail parking area from 9 a.m. to noon. Learn about behaviors, field-identifying marks, and how you can promote the conservation of peregrine falcons in the park. Check with the visitor center to see if the peregrines are still nesting.

Hawkwatch

Each year, thousands of raptors pass over Cadillac Mountain in late summer and early fall during their migration to warmer climates. Starting August 22, join park staff and volunteers from 9 a.m. to 2 p.m. at the Hawkwatch site (200 yards along the North Ridge Trail from the east side of Cadillac Summit) for on-site discussion and observation of migrating birds of prey. Binoculars are helpful.

One-hour evening programs take place every night at Blackwoods Campground and Tuesday, Wednesday, Friday, and Saturday night at Seawall Campground. Parking areas near amphitheaters accommodate non-campers. Amphitheater program schedule is as follows:

July	9 p.m.
August 1-15	8:30 p.m.
August 16-31	8 p.m.

Program topics and formats vary nightly; check park bulletin boards for program descriptions. Topics include Acadia’s plants and animals, geology, history, and more. See below for sample program descriptions.

All Things Furry

Explore the fascinating world of Acadia’s mammals and discover the unique adaptations essential to their survival. Join us for an exciting and interactive program that is fun for the entire family.

Nature’s Gifts: Our National Parks

Learn more about the origin of our national parks, described by some as “the best idea America ever had.”

The Unseen World

Discover how, when, and where to explore Acadia to see some of the park’s common, but often overlooked, beauties.

Blackwoods Campground is located on Route 3 at the southern edge of Otter Creek. Seawall Campground is located on Route 102A south of Southwest Harbor.

Park Concessions

Two park concessions offer services to visitors within Acadia National Park. **Acadia Corporation** operates gift shops at Cadillac Mountain, Thunder Hole, and Jordan Pond. Visit the Jordan Pond House for traditional tea and popovers, or a full lunch or dinner. For reservations, contact the Jordan Pond House at 207-276-3316.

Enjoy tea and popovers on the lawn at the Jordan Pond House with its spectacular views of Jordan Pond and the Bubbles.

Wildwood Stables, located one mile southeast of Jordan Pond, features horse-drawn carriage tours along Acadia’s historic carriage roads. Enjoy scenic vistas and cool forests on your narrated tour. Private tours and stabling for your personal horse are also available. For information, contact Wildwood Stables at 207-276-3622.

Eastern National

Looking for a guide to plants in the northeastern United States? Trying to find something to keep your kids occupied on a rainy day? Why not check out the Eastern National bookstores in the park? They carry a wide variety of educational items, including books on natural and cultural history, children’s stories, and travel; maps; notecards; and more. Eastern National bookstores are located at Hulls Cove Visitor Center, which offers the largest selection of items, Sieur de Monts Nature Center, park headquarters, Blackwoods and Seawall campgrounds, and Islesford Historical Museum.

Eastern National is a nonprofit agency that provides quality educational products and services to America’s national parks and other public trusts. Eastern National’s contributions have benefited parks and visitors by supporting research, educational, and interpretive projects and by funding publications. Joining Eastern National supports your parks and gives you 15% off merchandise in any Eastern National store. For more information, visit www.easternnational.org.

Junior and Senior Ranger Programs

Eastern National helps you learn more about Acadia National Park through the Junior and Senior Ranger programs. Purchase your Junior or Senior Ranger booklet at the Hulls Cove Visitor Center, the Nature Center, headquarters information station, or Blackwoods or Seawall Campgrounds. Complete the activities and earn your Junior or Senior Ranger certificate and patch.

Carriage Road Activity Guide

Eastern National also offers the Acadia carriage road activity book and patch. The book provides children with opportunities to actively learn about the history, ecology, and geology surrounding the carriage roads of Acadia. With the purchase of the activity book you will also receive a carriage road patch, new from Eastern National this year.

Watching for Wildlife

Like national parks throughout the country, Acadia offers many opportunities for observing wildlife. Deer browse alongside the Park Loop Road, songbirds dart through forests of peeling birch trees, raptors circle high overhead. Because of Acadia’s small size and proximity to towns and residential areas, these animals often come in close contact with people. Each of us must do our part to ease this contact, helping ensure the safety and health of wild animals. When you encounter wildlife in the park, remember these things:

- Never feed wild animals. Human food can make them ill and create beggar animals that no longer retain a healthy fear of humans.

- Keep your distance. Do not approach wild animals. If you suddenly find yourself too close, back away and give them room to escape.

- Watch for wildlife along roads, especially at dusk and dawn. Pay close attention, as they may not see you.

- Keep your dog on a leash at all times for the protection of the wildlife and your pet.

Don’t forget: Acadia National Park is their home. Let’s do what we can to make it a safe place for them to live.

Deer are frequently seen along the roadsides at dusk and dawn.

Protect Your Park

- Protect fragile plant life by staying on trails.

- Leave what you find. Removing natural and historic objects such as beach cobbles, flowers, starfish, and antlers degrades the park.

- All pets must be on a leash no longer than 6 feet for the protection of your pet, other visitors, and wildlife. Remember that some trails and all beaches are closed to pets.

- Pack it in. Pack it out. Carry out anything you have brought into the park. Better yet, carry out any other litter you find, too!

- Keep wildlife wild. Wild animals fed by people often starve in winter, are hit by cars, or become dangerous pests.

- Trail markers (cairns) are carefully maintained by the park. Please do not remove or add to these.

- Protect water sources. Do not swim in bodies of water marked as water supplies.

- Ride the Island Explorer shuttle bus (starting June 23) as it reduces the amount of traffic and pollution in the park. Pick up a schedule at any park information center.

- Camping and fires are only allowed in established areas.

- Skateboards, rollerblades, and similar devices are prohibited in the park.

Protect Yourself

- Always carry water, a map, adequate clothing, a first aid kit, and a flashlight while hiking.

- Be careful near cliff edges, especially if rock surfaces are wet.

- Remain in one place if you become lost or separated from your group.

- Always wear a helmet when riding a bike. Obey all traffic laws, including one-way signs.

- Be sure to check for ticks as Lyme disease can occur in this area. If walking through tall grass, consider wearing long pants and using insect repellent.

- Drive safely. The speed limit is 35 mph in the park unless otherwise noted. It is easy to get distracted by the scenery—pay attention.

- Do not leave valuables in your vehicle.

- Yield to wildlife on roads. Give them plenty of room and remain at a safe distance.

- Remember: When in doubt, ask a ranger first!
